

## New Backpropagation Algorithm with Type-2 Fuzzy Weights for Neural Networks

By Fernando Gaxiola

Springer-Verlag GmbH Jun 2016, 2016. Taschenbuch. Condition: Neu. Neuware - In this book a neural network learning method with type-2 fuzzy weight adjustment is proposed. The mathematical analysis of the proposed learning method architecture and the adaptation of type-2 fuzzy weights are presented. The proposed method is based on research of recent methods that handle weight adaptation and especially fuzzy weights. The internal operation of the neuron is changed to work with two internal calculations for the activation function to obtain two results as outputs of the proposed method. Simulation results and a comparative study among monolithic neural networks, neural network with type-1 fuzzy weights and neural network with type-2 fuzzy weights are presented to illustrate the advantages of the proposed method. The proposed approach is based on recent methods that handle adaptation of weights using fuzzy logic of type-1 and type-2. The proposed approach is applied to a cases of prediction for the Mackey-Glass (for  $\delta=17$ ) and Dow-Jones time series, and recognition of person with iris biometric measure. In some experiments, noise was applied in different levels to the test data of the Mackey-Glass time series for showing that the type-2 fuzzy backpropagation approach obtains better behavior and tolerance...

### Reviews

*This ebook is worth purchasing. It is written in straightforward words and not hard to understand. You will not feel monotony at any time of your respective time (that's what catalogs are for about in the event you ask me).*

-- Eileen Kling I

*Most of these ebook is the perfect publication readily available. I really could comprehend almost everything out of this created e pdf. I discovered this pdf from my dad and i recommended this book to find out.*

-- Vinnie Grant
