Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from *Collected Contributions on Digestion and Diet* The present volume consists mainly of a reprint of two publications by the author - namely, the *Lumleian Lectures On the Digestive Ferments and Artificially Digested Food*, delivered before the College of Physicians in 1880, and a course of five *Lectures On Dietetics and Dyspepsia*, given at the Owens College in 1885. These two little books, after running through two editions, were still called for; and it appeared more advisable to reissue them in conjunction than to print new editions of them separately. The opportunity seemed also a favourable one for bringing together into a collected form, convenient for reference, the other contributions of the author on kindred subjects. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
