# Human Activitity Recognition System Using accelerometer and Zigbee

Filesize: 8.6 MB

Reviews

This book may be worth purchasing. I was able to comprehended every thing using this published e publication. I am happy to let you know that this is the very best ebook i have got read inside my very own daily life and could be he finest ebook for actually.
(Rhoda Durgan PhD)

HUMAN ACTIVITITY RECOGNITION SYSTEM USING ACCELEROMETER AND ZIGBEE

To get **Human Activitity Recognition System Using accelerometer and Zigbee** eBook, you should refer to the hyperlink beneath and save the ebook or get access to additional information that are in conjuction with HUMAN ACTIVITITY RECOGNITION SYSTEM USING ACCELEROMETER AND ZIGBEE ebook.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Studies on Human Activity Recognition- Design of Body worn Accelerometer and identify different physical activities | With the advent of miniaturized sensing technology, which can be body worn, it is now possible to collect and store data on different aspects of human activities under the conditions of free living. This technology has the potential to be used in automated activity profiling systems which produce a continuous record of bodily activity patterns over extended periods of time. Such activity profiling systems are dependent on recognition algorithms which can effectively interpret body worn sensor data and identify different activities. The automated recognition of bodily activities (stationary, walking, running, jogging) using body worn accelerometer data is a challenging area of work. In this book existing activity recognition system were discussed. In Existing activity recognition systems suffer from several obvious practical limitations such as the location and nature of sensors that people will tolerate. Other issues include ease of use, discretion, cost, and the ability to perform daily activities unimpeded. The results are getting from the Accelerometers with different subjects are collected through pc and can be analysed by Matlab software by activity variance and DT algorithm. | Format: Paperback | Language/Sprache: english | 104 pp.
