Brand New Book ***** Print on Demand *****.Excerpt from A Manual of Practical Obstetrics The preparation of this book has been suggested to me. By the needs experienced in teaching students of medicine. The development of post-graduate instruction, and the establishment of obstetrics as a Senior Study in medical colleges, have relieved obstetric study from the details of anatomy and physiology memorized by the student in his earlier years. Whether he be an undergraduate in a medical college, or a practitioner, he desires to know the reasons for scientific facts, and the practical deductions which their consideration suggests. As an aid in such study, I have endeavored to give a concise statement of modern practical obstetrics as taught by Parvin, Lusk, Schroder, Winckel, Carl Braun, Galabin and Diihrssen. Personal experience has guided my choice of methods of treatment commended. My best thanks are due to Professor Parvin for many acts of courtesy and kindness; to Dr. Nandain Duer for assistance in preparing illustrations; and to Dr. A. A.
