Neuware - Essay from the year 2013 in the subject Sociology - Law, Delinquency, Abnormal Behavior, grade: keine, Sheffield Hallam University (International Criminal Justice), language: English, abstract: To understand the concept of globalisation, one has to recognize the process that led to globalisation. With the onset of industrialisation the focus changed, feudalism was replaced by modernity, whose aim was to create a functioning economy, and a solid profitable financial market, which led to capitalism. Sovereign states, increasingly moved towards nationwide financial and industrial markets. Due to the growing number and size of manufactures and extractive industries, mass employment was provided, which had a mayor influence on the defined class system at the time (Finday, 2005). The social middle class expanded and continued in a well defined class system. By the end of World War 2 modernity hit its peak and slowly changed into late modernity, which had its' beginnings in the early 70ies and could be found predominantly in advanced capitalist centres of the USA, Canada, Western Europe and Japan. Late modernity includes the progress from the political eras of colonisation, the economic eras of industrialisation and the social eras of states (Findlay,1999). Therefor the driving force for late modernity is the increase of labor power in modern capitalism (Melossi, 2003). 16 pp. Englisch.
