Excerpt from The Horse, Its Treatment in Health and Disease, Vol. 2: With a Complete Guide to Breeding, Training and Management The Hackney Pony. - The Hackney pony, now unquestionably an established breed, is a most valuable little animal, not only on account of his intrinsic merits, but because of the great success which usually attends the crossing of him with the mares of other pony breeds. As a variety but little need be said of him here, since in character and make-up he is simply a pocket edition of the ordinary Hackney, which by judicious selection has been bred down to the desired height by pony lovers, who have wanted to possess an animal of about 14 hands which will excel in action and possess all the good looks of the larger members of the breed. Fith the possible exception of the Wilson ponies - which have had more judicious care expended upon them for a longer period, and which owe by far the largest proportion of their excellence to the strong dash of Hackney blood which is inbred in their veins...
