Active North American Industry Classification System, Volume 1: Implementation by Tvtyne.Net (Paperback)

By Roy Lique

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The North American Continent, particularly the United States, is the hub of business activities that affect almost all countries in different regions of the world. It is not unusual therefore that a system of classifying industries for practical and business purposes, is devised in North America, hence, the North American Industry Classification System. NAICS, as the North American Industry Classification System is known for short, is as applicable in countries far removed from North America, as it is in Canada, the United States, and Mexico. For trading purposes, NAICS serves as a model and a standard that provides guidelines for the production and delivery of services and products. There is hardly any product or service in the world that is not named in NAICS. People from other countries can use NAICS as a resource for trying to penetrate market niches in North America. In the same manner, people from North America can use NAICS for exporting products and services to other countries. NAICS facilitates the exchange of information about products and services. Initially, Active North American Industry Classification System is designed as a...
